Rustic Log Home on 159.32 Acres – Ideal for Homesteading or Recreation! Step back into nature with this unique opportunity to own a charming log home nestled on approximately 160 acres of mixed-use land. Built in the 1980s, this 4-bedroom, 1-bathroom home exudes rustic character and offers a peaceful, self-sufficient lifestyle. The home itself will require some work and a creative touch but it offers plenty of living space over the 1.5 levels and could be transformed into something special. While there is no basement, a root-cellar-style crawl space provides additional storage for your homesteading needs. Outbuildings include an older barn that will require some rehabilitation, several utility sheds, and an older chicken coop – perfect for hobby farming or small-scale livestock. The property has power connected and natural gas available at the property line, offering flexibility for future upgrades. The land itself is a blend of open and forested areas – approximately 60–80 acres are in hay, fully fenced and cross-fenced, and have been previously used for grazing livestock. The remaining acreage is partially treed, offering privacy and a beautiful natural backdrop. Wildlife is abundant here, with frequent sightings of moose, deer, and bear – making this a hunter’s dream or a nature lover’s paradise. Whether you’re looking for a private retreat, a recreational getaway, or a functional rural property to build your dream off-grid lifestyle, this property offers endless potential. Schedule a viewing today and experience the beauty and opportunity this property holds.
